Quality Improvement Plan Summary

Rendelsham Primary & Preschool

Goals	Challenge of Practice	Success Criteria
To extend children's expressive language to represent their feelings, thoughts and ideas in multiple ways.	If we intentionally plan for, and teach individual children's language development, then we will see children effectively expressing their feelings, thoughts and ideas.	Pedagogical documentation will demonstrate children can: <ul style="list-style-type: none">- increasingly convey and construct messages with purpose and confidence- use increasingly complex sentences.- use increasingly complex vocabulary (moving from tier 1 to tier 2 and 3) to describe how they are feeling, their thoughts and ideas

National Quality Framework Priorities	Key steps
Paper wastage - recycling of paper and paper products	Work with the school community to develop a plan for how to collect and recycle paper products more effectively Work with the wider community to share our plan for our learning community and to encourage others to join us Put plans into place, that are simple and easily embedded into the daily routine. Reflect together about improvements and modifications
